

For Sale

682 sq. m

20 Villiers Street, Port Fairy

Distinctive Family Home

Located just moments from all that Port Fairy has to offer, this modern and stylish home provides an exceptional coastal lifestyle with a relaxed, holiday-like feel.

Architect designed, by Luke Jennings of Project Now Architects, this modern 3-bedroom home is full of distinctive features you won't find in a typical house. The home's facade boasts handmade copper tiles which have oxidised beautifully with time and contrast well with the rendered exterior. The corner stacked windows not only provide light and warmth to the home but also add to the contemporary look.

Inside, Tasmanian Oak flooring runs throughout the main traffic areas and is also included on the master bedroom timber feature bedhead, kitchen island and lounge room wall unit. There is a large open plan living and dining area, a separate family room, master suite with a walk-in robe and ensuite plus a beautifully appointed family bathroom.

**For Sale : \$1,050,000 -
\$1,125,000**
